ArtBox

- Digital way to store children's artwork
- Eliminates having artwork everywhere: in bins, drawers, etc.
- One place to store everything
- Can show to children when they are older

MVP:

- Create main user (parent)
  - Create children (linked to parent)
- Add artwork to specific child's account
- Display the child's artwork
- Clicking on artwork: larger display of artwork that includes
  - Creation Date
  - Age of Child when it was created
  - Description of artwork
- Ability to edit artwork information
- Ability to delete artwork (verify they want to delete it before actually deleting it)

Product Backlog:

- Multiple user accounts linked to same children (mom, dad, step parents, grandparents, etc.)
- Ability for user to comment on artwork (different then description)
- Ability for user to share artwork – gmail, Instagram, facebook
